

BRITISH MOTOR CLUB of UTAH  
MARCH 1989, VOL 1, ISSUE 6

\*\*\*\*\*

ACTIVITIES FOR MARCH

\*\*\*\*\*

At 11AM on the 4th of March we will have another tech session. This time it is on how to tune ANY AND ALMOST ALL British Sports Cars. It will be held at Roy Beale's MR. BRITISH garage. The address is 7250 South, 626 West, Midvale, Utah 84070.

This Promises to be even better than the one on carbs.

\*\*\*\*\*

On 11 March we are in the St. Patty's Day Parade. We will meet at the corner of Main & South Temple (approximately) at about 8:30. We'll run together and have fun with the Parade. Who knows what we will do afterward.

\*\*\*\*\*

WHAT WE DID IN JANUARY  
(We didn't do anything in FEB)

\*\*\*\*\*

On 17 January a group of over 12 of us met over at Parts Master for a tech session on Zenith Carbs. However, before it was all over, we also covered SUs. A neighbor of Kees video taped the session. Maybe we can look at it again later. The tech session was given by Roy Beale. He runs Mr. British garage. He covered alot. I took 11 Pages of notes that a week later I couldn't read. However, Bruce had some manuals for sale on the Zenith which some of us bought at 1/3 off.

Roy gave us some general tips before we got real technical. They were: 1. Read as much as possible before you start working on a carburetor. 2. Working on the carburetor is the last thing to do to get your car to run right. 3. If your car is running rough it is not JUST the carburetor. 4. For British cars, if it is running rough - adjust the valves !!!! 5. The Zenith gives more Problems than the SU. The Zenith was used because of emissions standards. 6. The oil in the damper is to keep the carburetor from flooding. The type of oil is not critical. However, the best oil was stated to be AUTOMATIC TRANSMISSION FLUID.

\*\*\*\*\*

We would like to thank Bruce for letting us use Parts Master for our tech session.

We would also like thank Roy for using his valuable time to instruct us on Zenith and SU carbs.

\*\*\*\*\*

Bill VanMoorhem's sign up sheet seems to be successful. We've had 2 bites already.

At the tech session Steve Nuessle showed us a Poster to advertise our coming events. You can see it soon. The Poster will be Posted at Parts Master advertising our St. Pat's Day effort. If you have any other ideas for where to put the Poster call me, Rich Holder at 250-4928, or Bill VanMoorhem at 582-9223, or Kees Versteeg at 268-2450, or Steve Nuessle at 263-3377.

\*\*\*\*\*

Janice Griffith took Duff's Patch design and has done some digging on how we can get club Patches and flags. She will be at the St Patrick's Day Parade on Saturday. If you are interested, be there to find out what we have to do to order a Patch, a flag or whatever.

\*\*\*\*\*

Two additional items for the Calendar. 1. September 2-4 Vintage Racing, Steamboat Springs, CO. 2. Sept 23-24 Silver State Classic at Elko, Nv. This classic is where a 50 or 100 mile stretch of highway is blocked off so you can see just how fast your car can go - for how long - and see how it stacks up with others. It has quite a stiff fee.

\*\*\*\*\*

FROM KEES: I have donated my 1960 Blue MGB to Intermountain Christian School's Fund Raising Auction to be held on April 1st. I have tickets for sale to the AUCTION, which includes a spaghetti dinner, for FIVE DUCKS. The car could go cheap since the attendance could be around 200 People. Call me at home at 268-2450 or at work 268-9700.

THANKS  
KEES

Some small notes: We are now mailing this to 41 addresses of interested individuals (WE HOPE). Since this effort is dueless, we rely on donations for stamps and envelopes and other things. So, we'll start keeping a list of who comes. After so long - don't know how long just yet - we will quite sending the news letter to those who are comming. They will still be able to read the new letter at Parts Master.

To Scott Gilmore. Could you please bring those pictures of Poker run to the St Pat's Day 9a99le. We need to show them around and reimburse you for them.

To Steve Wesson. We seem to have the wrong phone number. Could we please have the right one so we can phone you on the short notice efforts like the tech session on 4 March.
